

Material Safety Data Sheet

Page 1 of 4

Infosafe No. 5FUM3 Issue Date : August 2005 ISSUED by POLO

Product Name : **ADVANTAGE Pine Disinfectant**

Not classified as hazardous

1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND COMPANY

Product Name ADVANTAGE Pine Disinfectant
Product Code 3402
Product Use Supplied as a general purpose disinfectant for use in suitable applications only.
Company Name Polo Citrus Australia Pty Ltd (ABN 18 064 601 332)
Address PO Box 576 Melton
Vic 3337 Australia
Emergency Tel. 1300 369 422
Telephone/Telex Number Tel: 1300 369 422
Other Information Visit our website: www.polocitrus.com.au

2. COMPOSITION/INFORMATION ON INGREDIENTS

Chemical Characterization Liquid

Ingredients	Name	CAS	Proportion
	quaternary ammonium compound	N/A	0-10 %
	Phenol derivatives	Mixture	0-10 %
	Alicyclic hydrocarbons	N/A	0-10 %
	Aliphatic alcohols	Mixture	0-10 %
	Ingredients determined not to be hazardous	Mixture	To 100%

3. HAZARDS IDENTIFICATION

Irritation of Product Not classified as an irritant.

4. FIRST AID MEASURES

Inhalation Remove victim from exposure - avoid becoming a casualty. Seek medical advice if effects persist.

Ingestion Give water to drink. DO NOT induce vomiting. Seek medical advice.

Skin Wash with plenty of soap and water. If irritation occurs seek medical advice. Remove contaminated clothing and wash before re-use.

Eye Immediately irrigate with copious quantity of water for at least 15 minutes. Eyelids to be held open. Seek medical attention.

First Aid Facilities Normal washroom facilities are generally suitable. Ensure an eyewash station and safety shower are available and ready for use.

Advice to Doctor Treat symptomatically.

Other Information Keep water and mild soap near work site.

5. FIRE FIGHTING MEASURES

Extinguishing Media Use extinguishing media suitable for surrounding environment as this product is unlikely to burn.

Specific Methods Fire fighters to wear self-contained breathing apparatus if risk of exposure to products of decomposition.

Specific Hazards Low hazard

6. ACCIDENTAL RELEASE MEASURES

Material Safety Data Sheet

Page 2 of 4

Infosafe No. 5FUM3 Issue Date : August 2005 ISSUED by POLO

Product Name : **ADVANTAGE Pine Disinfectant**

Not classified as hazardous

Spills & Disposal Slippery when spilt. Avoid accidents, clean up immediately. Use absorbent (soil or sand, sawdust, inert material, vermiculite). Collect and seal in properly labelled drums for disposal. Observe local regulations. Wash away residues with water.

7. HANDLING AND STORAGE

Corrosiveness Not corrosive

Handling Ensure the appropriate personal protective equipment is used when handling this material. When handling product in drums, safety footwear should be worn and proper handling equipment should be used. Prevent spillages.

Storage Keep containers closed at all times. Store in cool place and out of direct sunlight. Store away from oxidizing agents. Check containers regularly for leaks.

8. EXPOSURE CONTROLS, PERSONAL PROTECTION

Exposure Limits No exposure standard has been established for this product.

Other Exposure Information Exposure Standard means the average concentration of a particular substance in the worker's breathing zone, exposure to which, according to current knowledge, should not cause adverse health effects nor cause undue discomfort to nearly all workers. It can be of three forms; time-weighted average (TWA), peak limitation, or short term exposure limit (STEL). Occupational exposure limits: When an exposure standard has not been established by the National Occupational Health & Safety Commission for a material, a blanket recommendation of 5 mg/m³ for respirable vapours, mists and dusts should be used.

Respiratory Protection Respirator not normally required. Airborne concentrations should be kept to lowest levels possible. If vapour, mist or dust is generated and the occupational exposure limit of the product is exceeded, use appropriate AS/NZS 1715/1716 approved half-face filter respirator suitable for organic vapours or air supplied respirator after determining the airborne concentration of the contaminant. Air supplied respirators should always be worn when airborne concentration of the contaminant or oxygen content of the air is unknown.

Eye Protection Safety glasses, goggles or faceshield as appropriate.

Hand Protection PVC, neoprene or nitrile rubber gloves.

Footwear Enclosed footwear.

Body Protection Overalls or similar protective apparel.

Eng. Controls Maintain concentration below recommended exposure limit. Special ventilation is not normally required due to the low volatility of the product at normal temperatures. However, in the operation of certain equipment or at elevated temperatures, mists or vapour may be generated and exhaust ventilation should be provided to maintain airborne concentration levels below the exposure standard or where no exposure standard is allocated, as low as is reasonably practicable.

Hygiene Measures Always wash hands before smoking, eating, drinking or using the toilet. If contamination occurs, change clothing. Discard internally contaminated gloves and footwear. Launder contaminated clothing before reuse.

9. PHYSICAL AND CHEMICAL PROPERTIES

Odour Lemon

Melting Point Less than 0 °C

Solubility in Water Soluble

Boiling Point Approximately 100 °C

pH Value Approximately 7 @ 20 °C

Vapour Pressure 2 kPa typical @ 20 °C

Material Safety Data Sheet

Page 3 of 4

Infosafe No. 5FUM3 Issue Date : August 2005 ISSUED by POLO

Product Name : **ADVANTAGE Pine Disinfectant**

Not classified as hazardous

Vapour Density (Air=1)	Greater than air
Evaporation Rate	Less than 1 (n-butyl acetate=1)
Viscosity	Approximately 5 mm ² /s @ 40 °C (kinematic)
Colour	Clear orange
Density	Approximately 1.0 kg/L @ 15 °C
Flash Point	Product does not have a flash point
Flammability	Non combustible. Non flammable. Product residue, following evaporation of liquid content will burn in the presence of an ignition source.
Ignition Temperature	Not applicable
Flammable Limits LEL	Not applicable
Flammable Limits UEL	Not applicable
Explosion Properties	Not considered an explosion risk under normal conditions of use
Oxidising Properties	Not classified as an oxidiser
Other Information	These physical data and other properties do not constitute a specification

10. STABILITY AND REACTIVITY

Stability	Stable under normal conditions of use
Hazardous Polymerization	Will not occur
Materials to Avoid	Strong oxidising agents and acids
Hazardous Decomposition Products	Decomposition products may include: a complex mixture of airborne solid and liquid particulates and gases, including carbon monoxide, carbon dioxide, soot, oxides of sulfur, and unidentified organic and inorganic compounds.
Hazardous Reaction	May react with strong oxidising agents and acids.

11. TOXICOLOGICAL INFORMATION

Toxicology Information	Estimated Oral LD50 (rat): greater than 2000 mg/kg.
Inhalation	Inhalation of mists or aerosols may produce respiratory irritation.
Ingestion	May cause mild gastric irritation if swallowed.
Skin	Not expected to be irritating to the skin although will have a degreasing action on the skin.
Eye	May cause watering of eyes.
Chronic Effects	Generally non-irritant on incidental contact. Excessive or prolonged contact may give rise to irritant or dermatitic effects.

12. ECOLOGICAL INFORMATION

Short Summary of Assessment of Environmental Impact	The product is based on substances that are classified as 'readily biodegradable' according to AS4351/ISO 7827.
Environ. Protection	Do not allow material to enter drains or waterways. Disinfectants are toxic to aquatic organisms.

13. DISPOSAL CONSIDERATIONS

14. TRANSPORT INFORMATION

Material Safety Data Sheet

Page 4 of 4

Infosafe No. 5FUM3 Issue Date : August 2005 ISSUED by POLO

Product Name : **ADVANTAGE Pine Disinfectant**

Not classified as hazardous

	Not classified as a Dangerous Good according to the Australian Code for the Transport of Dangerous Goods by Road and Rail.
U.N. Number	None Allocated
Proper Shipping Name	None Allocated
DG Class	None Allocated
Hazchem Code	None Allocated
Packing Group	None Allocated

15. REGULATORY INFORMATION

Poisons Schedule	Not Scheduled
Packaging & Labelling	No special packaging or labelling requirements.

16. OTHER INFORMATION

Contact Person/Point General Manager 1300 369 422

This information was prepared in good faith from the best information available at the time of issue. It is based on the present level of research and to this extent we believe it is accurate. However, no guarantee of accuracy is made or implied and since conditions of use are beyond our control, all information relevant to usage is offered without warranty. The manufacturer will not be held responsible for any unauthorised use of this information or for any modified or altered versions.

If you are an employer it is your duty to tell your employees, and any others that may be affected, of any hazards described in this sheet and of any precautions that should be taken.

Material Safety Data Sheets are updated frequently. Please ensure you have a current copy.
